1 Preamble

Thank you for your interest in CIVA training sessions!

Last year, once again, most of our CIVA training sessions were fully booked, and we would like to thank you for your participations.

Since CIVA offers more and more solutions and new modules, we want the CIVA users' community to take advantage of this software and all its capabilities.

By participating in these training courses, you will be able to maximize the benefits of CIVA, know its limitations and get sufficient knowledge of the calculation models to perform more efficient simulations.

EXTENDE provides comprehensive training courses for CIVA software, the expertise and modelling platform for NDT. These courses are intended for CIVA users, future CIVA users or people wishing to know the possibilities of the software.

In 2015, we began a new course dedicated to the CIVA Analysis module. This course focuses on the different basics and advanced tools proposed by CIVA to display and analyse UT acquisition data.

For all our courses, it is recommended that participants have basic knowledge in the field of NDT. The courses described in this catalog propose periods of lectures and numerous periods of practical use of the software on a PC through a set of application examples.

2 Introduction

In addition to the well-known six simulation modules available in CIVA (UT, ET, RT, CT, GWT, and CIVA ATHENA2D), the CIVA Analysis module (allowing to display acquisition DATA in an easy and understandable way) was released on February 2015.

More information about these modules is available on our website at <http://www.extende.com/what-is-civa>.

A new release of CIVA, CIVA 2016, is expected during the first semester of 2016.

As soon as this new version will be released, all our different CIVA courses will focus on the principal new functionalities of CIVA 2016, and also on the new modules that will be available in CIVA. That is the reason why we decided to diversify the types of training available.

3 Choosing the right course

Different users require different knowledge and have different expectations for CIVA. That is why EXTENDE provides different kinds of training courses that will allow the trainee to choose the one that fits his/her needs. Details of all the courses are described in §4.

EXTENDE provides four kinds of training courses:

3.1 Inter-company training sessions:

You will find detailed programs in this catalogue. Such sessions last 2, 4 or 5 days and are held in our facilities.

3.1.1 Five days Inter-company training courses:

Following the feedback received from the past sessions and in order to have enough time to go into the software in depth, CIVA UT inter-company sessions last 3.5 to 4 days. In these intercompany sessions, an additional module is proposed optionally, the duration of the full course being 5 days.

For each session, EXTENDE proposes one of the following extensions: CIVA RT/CT, CIVA ET, CIVA GWT, CIVA ATHENA2D or CIVA Analysis (see schedule in §5). The presentation of the addition module will take place on the afternoon of the 4th day.

For people interested only in the additional module, it is possible to register for only the last 1.5 days.

For people interested only in the UT module, it is possible to register for only the first 4 days.

3.1.2 Two or three days Inter-company training courses:

This option is dedicated to people who want to be trained only in a specific module other than the CIVA UT one.

3.2 Dedicated introductory courses:

This type of training session can be organized, either at the customer facilities or in EXTENDE premises, depending on the customer's preference. To take advantage of this option, the sessions are scheduled for a maximum of six people.

We can provide training sessions for more than six participants, but in that case we will provide two trainers.

Depending on the CIVA modules to be covered, these sessions last from 2 to 5 days.

3.3 Dedicated advanced courses:

With this option, a questionnaire is sent before the start of the session to guide the program according to your priorities. Training can take place on the company site or in our facilities. The customer will send some specific application cases a few days before the beginning of the session, so that the trainer can prepare the modeling of these cases. It is recommended to have first followed an introductory course before an advanced one.

3.4 Short "online" introductory course:

This session is done via a "WebEx" conference and lasts around half a day. This session helps to quickly learn the basics of the software in order to be efficient as soon as you start using it. It is strongly recommended to follow up with a complete course a few months after this short introductory one, to have a larger overview of the capabilities of CIVA.

4 Program of the sessions

4.1 Inter-company introductory course: "Introduction to CIVA & applications"

4.1.1 Schedule for 5 days of training in EXTENDE S.A. facilities:

Length: 5 days

<p>Day 1:</p> <ul style="list-style-type: none"> - General introduction on CIVA - Presentation of CIVA UT / Beam computation - Exercises of practical applications with CIVA UT / Beam computation 	<p>Day 2:</p> <ul style="list-style-type: none"> - Presentation of CIVA UT / Defect Response - Exercises on practical applications with CIVA UT / Defect Response
<p>Day 3:</p> <ul style="list-style-type: none"> - Presentation of Phased-Array UT sensors simulation settings - Exercises on practical applications with Phased-Array UT sensors 	<p>Day 4:</p> <ul style="list-style-type: none"> - Presentation and practical applications of the POD module - Build CIVA UT configurations with less guidelines - Open discussions on CIVA use and applications - Presentation of one additional CIVA module (RT / CT or ET or GWT or CIVA ATHENA2D). - Practice on one additional CIVA module (RT / CT or ET or GWT or CIVA ATHENA2D or CIVA Analysis).
<p>Day 5:</p> <ul style="list-style-type: none"> - Practice on one additional CIVA module (RT / CT or ET or GWT or CIVA ATHENA2D or CIVA Analysis). 	

Objectives: After the course, the trainees will be able to build a CIVA simulation configuration autonomously. They will obtain sufficient knowledge of the calculation models to have a clear idea about the capabilities and the limits of the software.

Training documents: The trainees will receive a paper and an electronic copy of the training book and an electronic copy of the presentations.

Price: 450 € (not including taxes)/person/day for courses in EXTENDE facilities.

When: See Part 5 for the 2016 schedule. Additional sessions can be organized on demand if enough people are interested.

Organization details: The sessions take place in EXTENDE premises:

Le Bergson, 15 Avenue Emile Baudot
91300 Massy
France

or

155 Cours Berriat
38000 Grenoble
France

EXTENDE provides sufficient computers to use CIVA in groups of 1 or 2. Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024.

EXTENDE delivers all the necessary licenses to use CIVA during the course.

EXTENDE will provide lunch each day.

4.1.2 Schedule for 2 days of ET training in EXTENDE S.A. facilities:

Length: 2 days

<p><u>Day 1:</u></p> <ul style="list-style-type: none"> - General introduction on CIVA - Presentation of CIVA Eddy Current (ET) module - Exercises on practical applications with CIVA ET 	<p><u>Day 2:</u></p> <ul style="list-style-type: none"> - Exercises on practical applications with CIVA ET - Presentation and practical applications of the POD module - Build CIVA ET configurations with less guidelines - Open discussions on CIVA use and applications
---	---

Objectives: After the course, the trainees will be able to build a CIVA simulation configuration autonomously. They will obtain sufficient knowledge of the calculation models to have a clear idea about the capabilities and the limits of the software.

Training documents: The trainees will receive a paper and an electronic copy of the training book and an electronic copy of the presentations.

Price: 450 € (not including taxes)/person/day for courses in EXTENDE facilities.

When: See Part 5 for the 2016 schedule. Additional sessions can be organized on demand if enough people are interested.

Organization details: The sessions take place in EXTENDE premises:

155 Cours Berriat
38000 Grenoble
France

EXTENDE provides sufficient computers to use CIVA in groups of 1 or 2. Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024. EXTENDE delivers all the necessary licenses to use CIVA during the course. EXTENDE will provide lunch each day.

4.1.3 Schedule for 2 days of RT and CT training in EXTENDE S.A. facilities:

Length: 2 days

<p><u>Day 1:</u></p> <ul style="list-style-type: none"> - General introduction on CIVA - Presentation of the CIVA radiography (RT) module - Exercises on practical applications with CIVA RT 	<p><u>Day 2:</u></p> <ul style="list-style-type: none"> - Build CIVA RT configuration with less guidelines - Presentation and practical applications of the POD module - Introduction to CIVA tomography (CT) module - Exercises on practical applications with CIVA CT - Open discussions on CIVA use and applications
--	---

Objectives: After the course, the trainees will be able to build a CIVA simulation configuration autonomously. They will obtain sufficient knowledge of the calculation models to have clear ideas about the capabilities and the limits of the software.

Training documents: The trainees will receive a paper and an electronic copy of the training book and an electronic copy of the presentations.

Price: 450 € (not including taxes)/person/day for courses in EXTENDE facilities.

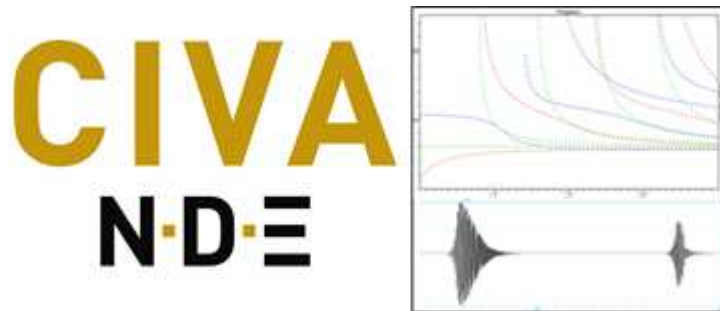

When: See Part 5 for the 2016 schedule. Additional sessions can be organized on demand if enough people are interested.

Organization details: The sessions take place in EXTENDE premises:

Le Bergson, 15 Avenue Emile Baudot
 91300 Massy, France

EXTENDE provides sufficient computers to use CIVA in groups of 1 or 2. Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024. EXTENDE delivers all the necessary licenses to use CIVA during the course. EXTENDE will provide lunch each day.

4.1.4 Schedule for 2 days of GWT training in EXTENDE S.A. facilities:

Length: 2 days

<p><u>Day 1:</u></p> <ul style="list-style-type: none"> - General introduction on CIVA - Presentation of the CIVA Guided Waves (GWT) module - Exercises on practical applications with CIVA GWT 	<p><u>Day 2:</u></p> <ul style="list-style-type: none"> - Exercises on practical applications with CIVA GWT - Open discussions on CIVA use and applications
---	--

Objectives: After the course, the trainees will be able to build a CIVA simulation configuration autonomously. They will obtain sufficient knowledge of the calculation models to have a clear idea about the capabilities and the limits of the software.

Training documents: The trainees will receive a paper and an electronic copy of the training book and an electronic copy of the presentations.

Price: 450 € (not including taxes)/person/day for courses in EXTENDE facilities.

When: See Part 5 for the 2016 schedule. Additional sessions can be organized on demand if enough people are interested.

Organization details: The sessions take place in EXTENDE premises:

Le Bergson, 15 Avenue Emile Baudot
 91300 Massy
 France

EXTENDE provides sufficient computers to use CIVA in groups of 1 or 2. Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024. EXTENDE delivers all the necessary licenses to use CIVA during the course. EXTENDE will provide lunch each day.

4.1.5 Schedule for 3 days of CIVA Analysis training in EXTENDE S.A. facilities:

Length: 3 days

<p><u>Day 1:</u></p> <ul style="list-style-type: none"> - Presentation of CIVA UT / Beam computation - Exercises on practical applications with CIVA UT / Beam computation 	<p><u>Day 2:</u></p> <ul style="list-style-type: none"> - Presentation of the analysis environment - Presentation of the main features for UT analysis in CIVA - Practical applications in CIVA Analysis module
<p><u>Day 3:</u></p> <ul style="list-style-type: none"> - Presentation of specific and advanced tools for UT analysis in CIVA - Practical applications in CIVA Analysis module - Open session 	

Objectives: After the course, the trainees will get sufficient knowledge of the analysis tools to be able to load and process their data in the software in order to generate an examination report including indications references and associated information.

Training documents: The trainees will receive a paper and an electronic copy of the training book and an electronic copy of the presentations.

Price: 450 € (not including taxes)/person/day for courses in EXTENDE facilities.

When: See Part 5 for the 2016 schedule. Additional sessions can be organized on demand if enough people are interested.

Organization details: The sessions take place in EXTENDE premises:

Le Bergson, 15 Avenue Emile Baudot
91300 Massy, France

EXTENDE provides sufficient computers to use CIVA in groups of 1 or 2. Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024. EXTENDE delivers all the necessary licenses to use CIVA during the course. EXTENDE will provide lunch each day.

4.1.6 Schedule for 3.5 days of UT + 1 day CIVA ATHENA2D or CIVA Analysis training in the U.S.A. (Fairfield Inn, Malta, NY State):

Length: 4 days

<p>Day 1:</p> <ul style="list-style-type: none"> - General introduction on CIVA - Presentation of CIVA UT / Beam computation - Exercises on practical applications with CIVA UT / Beam computation 	<p>Day 2:</p> <ul style="list-style-type: none"> - Presentation of CIVA UT / Defect Response - Exercises on practical applications with CIVA UT / Defect Response
<p>Day 3:</p> <ul style="list-style-type: none"> - Presentation on Phased-Array UT sensor simulation settings - Exercises on practical applications with Phased-Array UT sensors - Presentation and practical applications of the POD module in CIVA UT 	<p>Day 4:</p> <ul style="list-style-type: none"> - Open discussions on CIVA use and applications - Presentation of CIVA ATHENA2D or CIVA Analysis* <p>* see Part 5 for 2016 calendar</p>
<p>Day 5 (half day):</p> <ul style="list-style-type: none"> - Practice on one additional CIVA module (CIVA ATHENA2D or CIVA Analysis*). * see Part 5 for 2016 calendar 	

For people interested only in the UT module, it is possible to register only for the first 4 days.

Two sessions are scheduled for training sessions in U.S.A.: One will be dedicated to the UT / CIVA ATHENA2D modules, the second one to the UT / CIVA Analysis modules.

For the dates, please refer to chapter 5.

Objectives: After the course, the trainees will be able to build a CIVA simulation configuration autonomously. They will obtain sufficient knowledge of the calculation models to have a clear idea about the capabilities and the limits of the software.

Training documents: The trainees will receive a paper and an electronic copy of the training book and an electronic copy of the presentations.

Price: US\$ 500 (not including taxes)/person/day for courses in Fairfield Inn, Malta, NY near EXTENDE Inc. facilities.

When: See Part 5 for the 2016 schedule. Additional sessions can be organized on demand if enough people are interested.

Organization details: The sessions take place at the Fairfield Inn hotel, Malta, NY, near EXTENDE Inc. premises.

EXTENDE provides sufficient computers to use CIVA in groups of 1 or 2.

Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024.

EXTENDE delivers all the necessary licenses to use CIVA during the course.

EXTENDE will provide lunch each day.

4.2 Dedicated introductory Course: “Introduction to CIVA & applications”

EXTENDE proposes dedicated introductory training sessions organized from 2 to 5 days, depending on the modules in use and the interest of the customer. **Based on the standard program described above in 4.1**, the schedule is adapted to the customer’s request. This type of training session can be organized either at the customer facilities or in EXTENDE premises, depending on the customer’s preference. At the end of the course, the last day or half-day can be dedicated to the preparation of customer cases, but without advanced preparation from EXTENDE.

Length: 2 to 5 days

Objectives: After the course, the trainees will be able to build a CIVA simulation configuration autonomously. They will obtain sufficient knowledge of the calculation models to have a clear idea about the capabilities and the limits of the software.

Training documents: The trainees will receive a paper and an electronic copy of the training book and an electronic copy of the presentations.

Price: 1350 €* (not including taxes)/day or US\$ 1500*/day if the training session takes place in USA or Canada.

* Price for a group of 6 people maximum.
Beyond this number of participants, additional costs will be applied.

When: Organized on demand if our trainers are available.

Organization details:

- If the session takes place at EXTENDE, we provide computers to use CIVA in groups of 1 or 2. Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024. EXTENDE delivers all the necessary licenses during the course. EXTENDE will provide lunch each day.
- If the session is organized on a customer site, the trainer travel fees will be charged at a price defined in the official proposal. The customer is in charge of the organization of the training room (computers, projector, lunch, etc.). EXTENDE delivers all the necessary licenses to use CIVA during the course.
- If the session is organized at the Fairfield Inn facility (Malta, NY) in the U.S.A., additional fees will be charged at a price defined in the official proposal, for computers and facility rental. We provide computers to use CIVA in groups of 1 or 2. Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024. EXTENDE delivers all the necessary licenses during the course. EXTENDE will provide lunch each day.

4.3 Dedicated advanced courses: “To go further with CIVA for your applications”

EXTENDE completes its offer of training courses with **more customized sessions** on particular subjects that will need a detailed description of the customer’s targeted configurations.

This format is quite open. It allows, thanks to a preparation form completed by the customer, to focus the course on particular points from the basic program, as well as to define specific application cases. These configurations will be communicated by the customer at least 15 days before the beginning of the session, and EXTENDE will plan a specific preparation work with some examples. Such a session cannot last more than 5 consecutive days, but, on the customer’s demands, several sessions can be defined and organized at different periods.

Price: To be defined according to the course duration and the necessary preparation time

When: Organized on demand

Organization details:

- If the session takes place at EXTENDE or at a local facility near EXTENDE Inc. premises, we provide computers to use CIVA in groups of 1 or 2. Trainees are allowed to bring their own laptop, however CIVA is easiest to use with a graphic resolution of at least 1280x1024. EXTENDE delivers all the necessary licenses during the course. EXTENDE will provide lunch each day.
- If the session is organized on a customer site, the trainer travel fees will be charged at a price defined in the official proposal. The customer is in charge of the organization of the training room (computers, projector, lunch, etc.). EXTENDE delivers all the necessary licenses to use CIVA during the course.

4.4 Short online course: “Start with CIVA”

EXTENDE can provide new customers with a tutorial course for software application. This is a very short course, based on a presentation, demonstration, and a practical application on a very simple configuration.

This session is done remotely via a "WebEx" conference with the purpose to explain to clients the overall functionalities of the software.

The content of the short course is the following:

- CIVA Overview
- Brief presentation of the graphical user interfaces
- Demo: How to prepare a configuration, run the computation and save
- Demo: Introduction to imaging
- Demo: Presentations of the basic analysis tools
- Get the client started on a simple example

The duration of this session is 3 hours for one module. Another session of 3 hours, which can be delivered at a later time, is necessary if all the modules are undertaken.

Price:

- 500 €/3hours – 900 €/6hours

- US\$700/3hours – US\$1300/6hours for U.S. and Canadian customers

5 Upcoming Inter-company courses

The dates of the upcoming intercompany training courses for 2016 are given hereafter.

The costs and the program of these sessions are given in chapter 4.

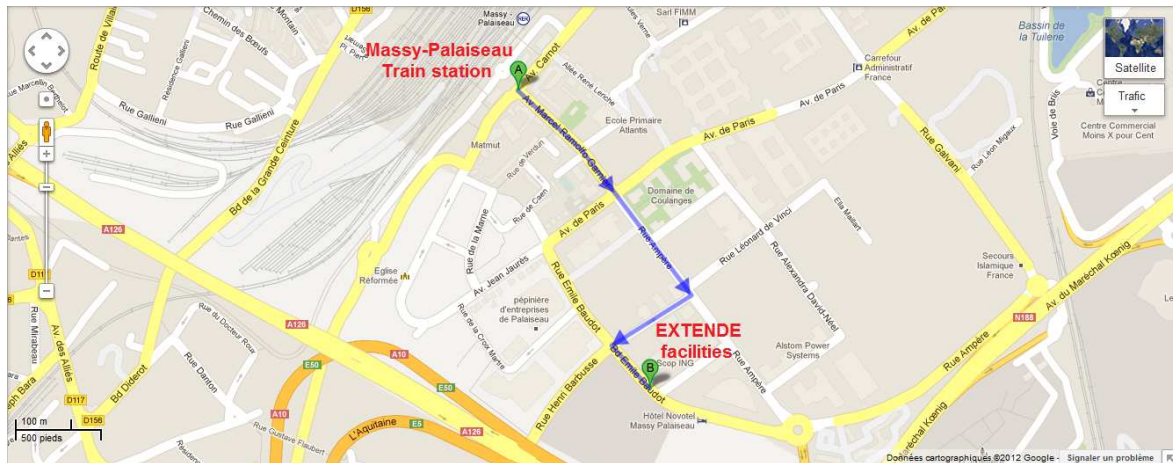

These courses are taught in English (excepted if only French speaking people or Spanish speaking people attend) and take place at EXTENDE S.A. (France) or near EXTENDE Inc. (U.S.A.) facilities.

For people wishing to be trained only on the UT module, the training will last four days and not five days. The last day is focused on another technique.

Training sessions	Dates	Location
3 days UT + 1 day CIVA ATHENA2D	February 29 to March 04	Massy, France
2 days RT	March, 07 to 08	Massy, France
3.5 days UT+ 1 day CIVA ATHENA2D	April, 04 to 08	Malta, NY, USA
4 days UT + 1 day CIVA Analysis	April 18 to 22	Massy, France
4 days UT + 1 day ET	May 30 to June 03	Grenoble, France
2 days GWT	June 27 to 28	Massy, France
4 days UT + 1 day RT	September 26 to 30	Massy, France
3 days CIVA Analysis (including 1 day UT Beam)	October 17 to 19	Massy, France
4 days UT + 1 day GWT	November 14 to 18	Massy, France
3.5 days UT+ 1 day CIVA Analysis	December 05 to 09	Malta, NY, USA
2 days ET	December 15 to 16	Grenoble, France

6 HOW TO REACH US?

6.1 TRAINING AT EXTENDE S.A. FACILITIES (head office in Massy)

EXTENDE is situated at 17 kms South from Paris, in the city of Massy, France.

[Find us on Google Maps](#)

Coming by car:

From Paris, the easiest way is to take the Highway A6-A10, take the exit “Massy”. The journey time is approximately 20 minutes from the South of Paris.

Getting here by public transportation:

The trains “RER B” and “RER C” go directly from Paris to Massy. The train stop is the “Massy-Palaiseau” train station. EXTENDE S.A. facilities are only 750m away from the train station.

Contact us:

EXTENDE S.A.

Our facilities are in:

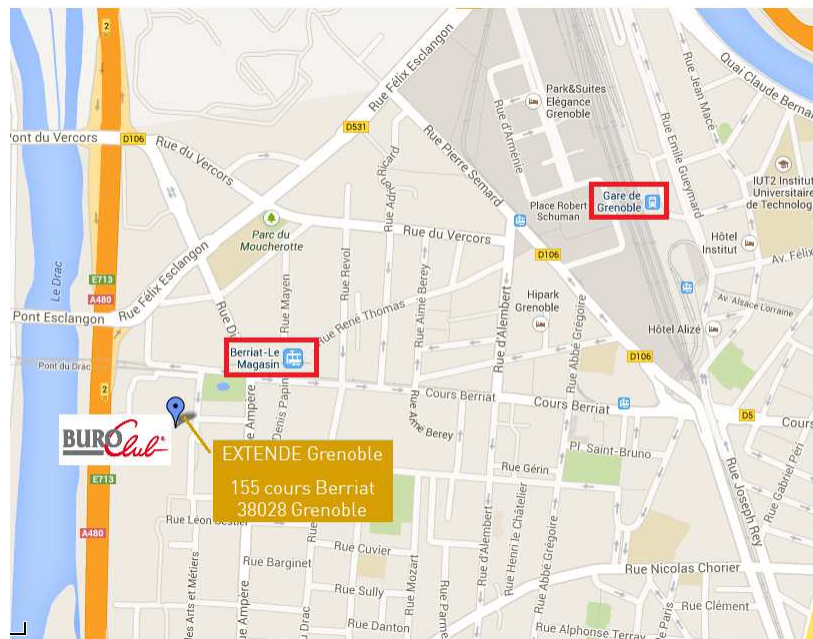

Le Bergson, 15 Avenue Emile Baudot
91 300 Massy
France

contact@extende.com
Fax: +33 (0)9 72 13 42 68

6.2 TRAININGS AT EXTENDE S.A. FACILITIES (Grenoble office)

Our facilities are in:

EXTENDE Grenoble
Bâtiment BURO Club Grenoble centre
155 Cours Berriat CS70022
38028 Grenoble
France

6.3 TRAININGS NEAR EXTENDE INC. FACILITIES

Approximately 20 miles North of Albany International Airport

[Find us on Google Maps](#)

Coming by car:

Take I-87 to exit 12 onto Route 67 East. Turn onto Saratoga Village Boulevard at the round-about, and take it till you reach the Fairfield Inn.

Contact us:

EXTENDE Inc.

PO Box 461
Ballston Spa, NY 12020
U.S.A.

contactus@extende.com
